Best College Award of Savitribai Phule Pune University Pune in 2009-10 and 2021-22

## Internal Quality Assurance Cell

### Criterion – VII Institutional Values and Best Practices

#### 7.1 Institutional Values and Social Responsibilities

**7.1.6 Quality audits on environment and energy regularly undertaken by the Institution.**

**7.1.6.1 The institutional environment and energy initiatives are confirmed through the following:**

**Beyond the campus environmental promotion activities:** The activities about water conservation, pollution are conducted by arranging student awareness programs in which NSS, students from environmental science are actively participated.

**1) Environment awareness and plastic garbage collection activity:** IQAC & Department of Geography of our institute and KTHM College, Nashik were jointly organised Environment awareness programme and plastic garbage collection activity to induce environmental awareness in Society. This programme also conducted to sowing seeds of forest tree plants on and around Bramhagiri Fort.

**2) Biodiversity survey at nearby village:**

The Department of Zoology conducted survey to understand insect fauna from the Girnare village to understand present status and to aware villagers regarding conservation of species observed.

### 3) Organic Farming Awareness /NSS

The Department of Chemistry in association with NSS unit of institute conducted awareness programme about the organic farming in Girnare village to promote and manage biodiversity and increased populations of natural enemies to direct and motivate the farmers towards Organic farming by minimizing the use of chemical fertilizers and pesticides. It consequently improve ecological health.

### 4) Water Conservation Awareness Programme

The Department of English conducted Water Conservation Programme about the water-related issues with students and people by sharing information. This programme was undertaken with the following objectives ;

- To raise awareness: By sharing information about water-related issues and solutions with students and people

- To demonstrate the importance of water conservation as an essential component of sustainable development to students.
- To introduce the seriousness of water conservation and encourage households to save water. To encourage students to participate in water awareness events, giving them an opportunity to become aware of their own relationship with water and how often they use it.
- To enhance the communication and interactive skills amongst students.
